

We exhibited it in "SMM Hamburg 2008"

Large power products Operations Div. exhibited for "SMM Hamburg 2008" in Hamburg City, Federal Republic of Germany.

By the international and the time-honored, this fair becomes the 23rd by this year of the biennial holding and also this is the biggest scale of all international maritime exhibitions. This year, it held with the record of highest number of exhibitors and visitors.

We released the new cut-model as 1/3 scale of the large engine product, Earth & Yanmar series which are environmentally oriented, attracted visitor's attention. We really achieved fruitful results.
